

HAZARD STATEMENTS

FATAL IF INHALED OR SWALLOWED. CAUSES SEVERE SKIN BURNS AND EYE DAMAGE. CAUSES SERIOUS EYE IRRITATION. CAUSES DAMAGE TO THE RESPIRATORY SYSTEM FROM SINGLE EXPOSURE OR THROUGH PROLONGED OR REPEATED EXPOSURE BY INHALATION. VERY TOXIC TO AQUATIC LIFE WITH LONG LASTING EFFECTS.

Do not breathe gas or vapors. Use only outdoors or in a well-ventilated area. Do not get in eyes, on skin, or on clothing. Wear protective gloves, eye and respiratory protection [in accordance with this label]. Wash hands thoroughly after handling. Do not eat, drink, or smoke when using this product. Wash contaminated clothing before reuse. Get medical advice if you feel unwell. Store in well-ventilated place, Keep container tightly closed. Store locked up. Avoid release to the environment [except for authorized use]. Collect spillage. Dispose of contents and container in accordance with government regulations.

Supplemental Information: Closed cylinders may rupture or burst if heated by fire. Keep away from heat/open flames. Store away from combustible materials. In case of fire, evacuate area. Fight fire remotely due to the risk of cylinder rupture.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Some materials that are chemical-resistant to this product are nitrile and butyl. For more options, follow the instruction for EPA Category F on the chemical-resistance category selection chart.

- All persons applying chloropicrin must wear:
 - Long-sleeved shirt and long pants
 - Chemical-resistant gloves
 - Protective eyewear or face shield (do not wear goggles)
- Persons applying chloropicrin to more than two introduction points within a single fumigated structure must also wear a positive pressure self-contained breathing apparatus.
- The employer of any person applying chloropicrin must make sure that their employee is provided with and correctly wears the required PPE.
- Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water.
- Keep and wash PPE separately from other laundry.

PELIGRO

POISON

*Si Usted no entiende la etiqueta, busque a alguien para que se la explique a Usted en detalle.
(If you do not understand the label, find someone to explain it to you in detail.)*

FIRST AID	See Section 4 of SDS for additional First Aid information.
IF INHALED:	Remove person to fresh air and keep comfortable for breathing. Immediately call a physician or poison control center.
IF ON SKIN (or hair)	Take off immediately all contaminated clothing. Rinse skin with water or shower. Immediately call a POISON CENTER or doctor.
IF IN EYES:	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor, [for liquid contact] [For vapor contact], if eye irritation persists, get medical advice.
IF SWALLOWED:	Immediately call a POISON CENTER or doctor. [Dab material from mouth with dry cloth first, if possible] Rinse mouth. Do NOT induce vomiting.
SUPPLEMENTAL INFORMATION:	Chloropicrin is a volatile liquid and a potent lachrymator (eye tearing). Early symptoms of overexposure are lachrymation, respiratory distress, and vomiting. Pulmonary edema and pulmonary symptoms may be delayed. Treatment is symptomatic.

DIRECTIONS FOR USE

Chloropicrin is a warning agent introduced into the structure prior to fumigation with Vikane®* specialty gas fumigant. In order to avoid direct exposure to the fumigant being released, chloropicrin must be released within the structure at least 5 to 10 minutes prior to introduction of the fumigant. Place a handful of wicking agent (e.g., cotton) in a shallow chloropicrin evaporation container. Do not use containers made of magnesium, aluminum, or their alloys, as chloropicrin may be severely corrosive to such metals. To enhance the distribution of chloropicrin throughout the structure, place the shallow chloropicrin evaporation container in the air stream of a fan. Pour chloropicrin over the wicking agent. When adding chloropicrin to evaporation containers, dispense no more than 3 fl. oz. per container. Use 1 fl.oz. per 10,000 to 15,000 cu. ft. (30 ml. per 283 to 425 cu. m.) of space to be fumigated, or follow dosage rate calculated by the electronic Fumiguide™ system. Use one introduction site per 20,000 to 45,000 cu. ft. When applying chloropicrin at multiple chloropicrin introduction points within a structure, start at the point furthest from the exit and work toward the exit. Removal of all chloropicrin evaporation containers from the fumigated space following tarp removal or during "Step (1) of Aeration Procedure 1 or 2", as referenced on the product label for Vikane®, will aid in the dissipation of the warning agent from the structure.

*Vikane is a trademark of Douglas Products

STORAGE AND HANDLING

STORAGE: Store cylinders upright, in a cool, dry, well-ventilated area, under lock and key. Store product only in original container. Do not contaminate water, food, or feed by storage or disposal of this product.

RETURN OF CYLINDERS: Cylinders are the property of Cardinal Professional Products, and empty cylinders must be returned promptly by collect auto freight to 1667 Purdy Avenue, Mojave, CA 93501. When a cylinder is partially full, and there is no further requirement for the product, contact the company at (661) 824-2494 for return instructions. Do not ship cylinders without safety caps. Containers should never be refilled by the consumer or used for any other product or purpose.

SHIPPING: This material is classified in the U.S. Department of Transportation Hazardous Materials Regulations as Chloropicrin, 6.1, UN 1580, PG I, Poison-Inhalation Hazard, Hazard Zone B, and no exemptions from specifications, packaging, marking, or labeling are allowed, except as specified in DOT-SP 12007, dated August 27, 2014 (expiration date: March 31, 2018). [Contact your Cardinal representative for a copy.] Describe empty cylinders as having last contained Chloropicrin (Inhalation Hazard). Do not ship with food, feed, or clothing.

SPILL AND LEAK PROCEDURES

Evacuate immediate area of spill or leak and do not permit re-entry into spill/leak or cleanup areas by unprotected persons until the concentration of chloropicrin is measured to be 0.15 ppm or less. Use a self-contained breathing apparatus (SCBA) for entry into affected area to correct the problem. Working upwind if possible, move leaking or damaged containers outdoors or to an isolated location. Allow spilled material to evaporate or absorb onto vermiculite, dry sand, earth or similar absorbent material. Thoroughly aerate absorbent materials outdoors prior to disposing of on site or at an approved disposal facility.

TERMS AND CONDITIONS OF USE

If terms of the following Warranty Disclaimer, Inherent Risks of Use and Limitation of Remedies are not acceptable, return unopened package at once to Seller for a full refund of purchase price paid. Otherwise, use by Buyer or any other user constitutes acceptance of the terms below.

WARRANTY DISCLAIMER: Seller warrants that this product conforms to the chemical description on its label and is reasonably fit for the purposes stated on the label when used in accordance with label directions under normal conditions of use. Neither this warranty nor any other warranty of Merchantability or Fitness for a Particular Purpose, express or implied, extends to the use of this product in a manner contrary to its label.

INHERENT RISKS OF USE: It is impossible to eliminate all risks associated with use of this product. Personal injury (including possible death), property damage (including plant injury), lack of performance, or other unintended consequences, may result because of such factors as use of the product contrary to label instructions, abnormal conditions, or other factors beyond the control of Seller. To the extent allowable by State law, all such risks shall be assumed by Buyer.

LIMITATION OF REMEDIES: To the extent allowable by State law, the exclusive remedy for losses or damages resulting from this product (including claims based on contract, negligence, strict liability, or other legal theories), shall be limited to replacement of the amount of product used. Seller shall not be liable for losses or damages resulting from handling or use of this product unless promptly notified of such loss or damage in writing. To the extent allowable by State law, Seller shall not be liable for consequential or incidental damages or losses. The terms of the Warranty Disclaimer, above, and this Limitation of Remedies cannot be varied by any other written or verbal statements or agreements. No employee or sales agent of Seller is authorized to vary or exceed the terms of the Warranty Disclaimer or this Limitation of Remedies in any manner.
